

Report Review MAS124		Group number
<i>Commented report attached</i>		
	Review item	Comments
<b>Technical work</b>	Major aspects	
	Valid reasoning and understanding	
	Conditions, assumptions stated	
	Governing equations	
	Methods to solve eq	
	Correct, reasonable work	
	Comments on unrealistic results	
	Appropriate nr of figures/tables Reasonable conclusions	
<b>Content</b>	Brief, meaningful title	
	Title, affiliation, contact info	
	Motive, method, key result in abstract	
	Introduction, topic importance, background, references, purpose	
	Apparent structure of paper	
	Separate sections	
	Meaningful headings	
	Relevant, concise content	
<b>Style</b>	Appropriate level of detail	
	Conclusion about important results	
	Sources of previous work, method or data cited	
	Commendable english/norw	
	Clear and apparent form	
	Good first sentence	
	Spelling correct	
	Figures/Tables clear and integrated properly	
Meaningful/Self-containing captions		
<b>Overall impression</b>	Axes properly labeled, fontsize, units	
	Definition of equation properties	
	Numbering correct	
	Complete list of references and proper use	
	Overall impression	
	Main point	
	Like the most	
	Like the least	
Improval recommendations		
<b>Matlab</b>	Concise coding	
	Accurate results	
	Use of if else statement	

	Curve fit	
	Figure labeling	
	Comments in code
